

Marco Website Design Breakdown

About Combat Covers:

Combat Covers are small, spandex-based protective gear designed to enhance training safety for Mixed Martial Arts fighters and hobbyists. They are lightweight, breathable, and abrasion-resistant, with reinforced stitching and moisture-wicking properties. The design ensures durability during high-intensity training while maintaining comfort and functionality.

Reusable/machine wash approved.

Product one-line summary:

Sold as one piece (2 units per piece) — two spandex sleeves with silicone inner lining that slip over the velcro/wrist base of MMA, boxing, and other combat gloves to prevent velcro from lifting and scratching training partners.

Short product blurb (for product grid/hero):

Combat Covers are form-fitting spandex sleeves with a silicone inner lining that grip combat glove bases to prevent slippage and stop velcro from catching or scratching training partners. Each purchase is sold as one piece (contains two sleeves) and includes a reusable mesh wash bag.

Key benefits (bullets)

- Safety-first: prevents Velcro catches, abrasions, and scratches to training partners
- Multi-glove compatibility: fits MMA, boxing, and most combat glove wrist/Velcro bases
- Secure fit: silicone inner lining prevents slippage during high-intensity training
- Comfortable & durable: breathable spandex, moisture-wicking, abrasion-resistant, reinforced stitching
- Easy care: reusable; machine wash inside included mesh bag; air dry only

Contents & materials

- Contents: 1 piece = 2 Combat Covers (left & right) + 1 reusable mesh wash bag + care card
- Outer fabric: stretch spandex blend (breathable, abrasion-resistant, moisture-wicking)
- Inner layer: silicone grip lining to prevent slippage
- Stitching: reinforced at stress points

Fit & sizing guidance

- Designed to fit the wrist/velcro base of standard MMA, boxing, and combat gloves.
- One size

Care instructions (short)

- Place covers inside the included mesh wash bag before laundering.
- Machine wash cold, gentle cycle.
- Do not tumble dry — air dry flat or hang.
- Do not bleach or iron printed/silicone areas.

Marco notes: Logo design & Sample Images:

- NOT the final product images so no need to include these on the site, just so you can get a visual idea of what they look like.
- We also intend to have a product photo shoot (once we have the final product) to display on the site.
- Ignore the measurements on the logo image.
